## REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

There was no prior art found by the examiner that suggested modification or combination with the cited art so as to satisfy the combination of all the limitations in claims 28 and 39.

As to claim 28, the prior art of record, taken alone or in combination, fails to disclose or render limitations **"a reflective surface located on the chassis at a known distance from the support surface"**, **"the reflective surface receives light reflected from the selected facet of the mirror wheel ... receives light reflected from the object and directs it back to the selected facet"** and **"detector located on the chassis with the field of detection that includes the selected facet, detects light redirected light from the selected facet"**, in combination with the rest of the limitations of claim 28.

As to claim 39, the prior art of record, taken alone or in combination, fails to disclose or render limitations **"redirecting the moving light beam using a reflective surface such that the rotatable sweeping of the moving light beam through an arc of a circle is converted to a modified moving light beam that moves laterally through a plane across the support surface"** and **"the detector field of view and the fixed light beam are initially oriented directly toward and redirected by the selected facet of the mirror wheel"** **a reflective surface located on the chassis at a known distance from the support surface"**, in combination with the rest of the limitations of claim 39.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
